The Worshipful Company of Plumbers Award for Outstanding Contribution to the Company

(August 2026)

1. The Worshipful Company of Plumbers Award for Outstanding Contribution to the Company shall be made exclusively to any person or team/group who or which has made an outstanding contribution to the Company. The criteria are deliberately not fully prescribed. It is mutually exclusive from the St Michael Medallion Award, which is given for outstanding contribution to plumbing.

2. The award will be made only in exceptional circumstances, and therefore not every year. However, if appropriate, it may be made to more than one person or team/group in one year. Nominations can be made by any member of the Company to the Award Panel in writing giving a full explanation to support it.

3. The Award Panel will be formed from the current Master and Wardens in the year in which the Award is recommended for a particular person or team/group. Its composition will accordingly change each year, but each member will serve for 3 years to give a measure of continuity. The Master and Wardens can consult as they see fit on the making of an award.

4. Masters and Wardens will not be eligible for consideration for the Award in the years in which they fill their respective offices.

5. Whenever the Award Panel consider there to be a suitable person or team/group it shall submit the nomination(s) to the F&L committee for consideration. If a nominee is serving on the F&L committee, the nomination should be discussed out-of-committee, excluding the nominee.

6. If the F&L committee approves the nomination the Award Panel shall present its recommendation, in a written report, together with a draft citation, to the next meeting of the Court. If a nominee is serving on the Court, the nomination should be discussed out-of-court, excluding the nominee.

7. The Award will consist of an embossed Certificate and the Company Plaque and should be presented if possible at a suitable Company function – Annual Banquet, Annual Lecture or Summer Festival.
